

We offer a completely new design of Portable backdrop stands. They are versatile, lightweight yet handle heavy-weight backdrops. The stand itself can be an ordinary light stand as it has a 5/8" spigot along with 1/4"-20 tripod screw on the top. All our backdrop stands are air cushioned, so it would be safe to release the lock with heavy load.

20-2013-3

Motorized backdrop rollers

20-409

The motorized backdrop roller kit is to make rolling and unrolling background paper or muslin backdrop easy. The unit comes with control box, remote control, can operate the motor 10 meters away, has 120 and 220 version. It works on the same mounting system of the 20-400. Use background paper with core, for muslin, requires 40-401 or 40-402 for individual color.
